Limbert's Holland Dutch Arts and Crafts Furniture

Through its material, style, workmanship and durability, Limbert's Holland Dutch Arts and Crafts furniture has come to be the American standard of this school of design. With the increasing demand for, and the more universal appreciation of this type of furniture, the name Limbert's Holland Dutch Arts and Crafts has come to represent the height of perfection in workmanship and finish.

This furniture is modeled and constructed by Holland Dutch Artists and Craftsmen who live and work in the proper environment and have the enthusiasm, patience and perseverance to produce the best; men who have the genuine artistic spirit which recognizes that art is use made beautiful and not artifice at the expense of artisanship.

Construction.

Every piece of Limbert furniture is made from carefully selected white oak which has been cured by age so as to retain its natural strength and beauty and treated to withstand our modern house-heating methods. The thickness and weight of the materials are just what they appear to be. Solid white oak is used throughout.

Limbert's Holland Dutch Arts and Crafts furniture is essentially the result of hand labor, machinery being used only where it can be employed to the advantage of the finished article. Each piece is as well made as it can be and each piece is actually held together by mortise and tenon, pin and dowel and other sound structural devices.

Color and Finish.

Limbert's Holland Dutch Arts and Crafts furniture can be furnished to order in any finish that can be made on white oak. We carry it in the standard finishes that will harmonize with almost any color scheme.

Spanish Morocco Leather

Limbert's Holland Dutch Arts and Crafts tannage produces from the imported goat skins, which are used exclusively, a quality of leather at once soft and pliable as well as tough and strong. The natural follicles of the goat skins give a uniform surface and make it possible to secure most artistic shadings and effects in coloring, which are fast and permanent. This Arts and Crafts Morocco is guaranteed to give entire satisfaction and to withstand anything but misuse.

Comfort and Restfulness

Every age that has inherent individuality and vitality expresses its art

through its needs, for true art reduced to its simplest definition is merely the perfection and beautification of the useful.

In an age where men wore silk stockings, knee breeches, powdered wigs and lace ruffles, spindly Sheraton chairs and gilded Rococco furniture typified and expressed their ideas of comfort and art and satisfied their needs. So in this strenuous and aspiring age, the solid construction and strength, as well as the comfort and usefulness of Limbert's Holland Dutch Arts and Crafts furniture is an expression of the modern spirit and its needs. Its unusually attractive qualities cannot only be enjoyed during one lifetime, but will endure for the service and pleasure of future generations.

This line embraces over four hundred patterns, and with the exception of chamber furniture, includes everything that is necessary to furnish private homes, summer cottages, clubs, halls, public buildings, etc.

We are exclusive distributors for Limbert's Holland Dutch Arts and Crafts furniture and would be pleased to have you call and examine the different patterns at our store.
